SUMMARY

As an ambitious African Leadership University student, I am passionate about web development and eager to make a meaningful impact. I aim to harness technology to address global challenges, including mental health issues. I'm a visionary leader, driving awareness and empowerment in my community. Coding and programming hold the key to a better future, and I'm enthusiastic about joining a coding camp program to further this mission.

EDUCATIONAL BACKGROUND

African Leadership University – Kigali, Rwanda

September 2022 – February 2023

BSE. computer science and engineering

Relevant Coursework: Software engineering; Artificial Intelligence, Web development, and programming

EXTRACURRICULAR ACTIVITIES

Projects:

May 2023-Present

- **Frontend Mentor Challenges:** Completed various real-world projects from Frontend Mentor, demonstrating proficiency in HTML, CSS, and JavaScript. Projects as Result Summary Component.

School Projects:

October 2023-October 2023

- **Airbnb Clone (2023):** I completed an Airbnb clone project as part of my school curriculum. This project involved replicating the Airbnb website's frontend design and functionality. My role included designing the user interface, implementing responsive web design, and integrating JavaScript for interactive features. This project greatly enhanced my web development skills and deepened my understanding of front-end technologies.

Co-Founder, U-LOVE club

May 2023 - Present

A group of more than 50 students from various backgrounds is dedicated to eradicating the stigma associated with mental illness and transforming the world by spreading love and happiness through multiple activities and events.

Actively participate as a member of TRES Toastmasters Club, a prominent organization focused on public speaking and leadership development. Engage in workshops, seminars, and club events to enhance speaking techniques, storytelling abilities, and persuasive communication strategies.
